

Report of IML Congress in DALIAN/China
May 12 - 13, 2016

The Congress was held without any problems. Several times the friendly relationship and good cooperation with the IVV were underlined and they wish to promote the cooperation. In this regard, a meeting of both chairs should be planned.

After the Congress, a meeting took place with Dolores Grenier IML Vice President, Raymond Claude IVV, Jin Qiao and Elaine Li CVA and representatives of the organizers of the IML events in Dalian and Beijing. The goal was to grant the IVV stamp at the events by the organizers and to work more closely with the CVA, if possible to become member of the CVA. Influenced by Dolores Genier, both organizers agreed with the suggestions and will negotiate with the CVA about a membership. The CVA will keep the IVV informed.

Raymond Claude had friendly contacts and longer discussions with Chaim Shoshan, Vice President IML and chair member of the IML club of Israel „Israel Sport For All Association“.

He said it would be important to become IVV member and he will try to realize it. We should write a letter to the club.

There was also a conversation with Ms Fitriani Kuroda, General Secretary of the IML club „Jogja Walking Association“ in Indonesia, who are also an IVV member, to found an IVV national association in Indonesia. She will try to do so, up to now she was not aware of the conditions to found an association. The IVV Head Office should send her the records and rules.

The question arises if it was opportune to send these records of founding a national association to all IVV direct members.
